

Paris, February 27, 2019

Prof. Marianna Braza
IMFT
Toulouse

Dear Colleague,

I have the pleasure to inform you that the 3AF Aerodynamics Technical Committee distinguished with the award of the best communication presented at the 53rd 3AF International Conference on Applied Aerodynamics, held in Salon-de-Provence in March 2018, the conference entitled:

Electroactive morphing on a supercritical wing targeting improved aerodynamic performance and flow control in high Reynolds numbers

coauthored by: N. Simiriotis, G. Jodin, A. Marouf, Y. Hoarau, J.-F. Rouchon and M. Braza.

This award, which recognizes the remarkable scientific level of the communication, as well as the high quality of both the oral presentation and its written version, will be officially presented to the authors during the 54th 3AF International Conference on Applied Aerodynamics to be held at CNAM in Paris, on March 25-26-27, 2019.

We sincerely hope that you will be able to attend this conference and thus to receive your award.

With our warmest congratulations and our thanks for your contribution which honours the 3AF activities.

Very sincerely yours,

Jean Déleroy
On behalf of the 3AF Aerodynamics Technical Committee.
